

Company Profile

At Tami, we bridge the gap between farm and table. We are a leading agricultural commodities trading company in Vietnam, specializing in connecting producers of Rice, Pepper, Coffee, and more, with the global food industry. We handle the sourcing, logistics, and risk management to ensure a smooth and efficient flow of essential goods around the world.

TAMI AGRICULTURE TRADING

About Us Company

Tami was founded in 2018 with the intention of selling agricultural products from Vietnam to Malaysia as a small trader. Accompanying Vietnam's economic development trend of integration and globalization with a focus on promoting agricultural exports, our business has expanded its Vietnamese-branded agriculture offerings thus far.

Our goal is to become a market leader in agricultural exports, thus we're always working to better ourselves and construct a state-of-the-art facility to satisfy the industry's ever-growing needs. So far, Tami has made a good impression in discerning markets across the globe, including those in the Philippines, China, Indonesia, North America and EU.

TAMI AGRICULTURE TRADING

Our Mission

Our main goal is to introduce Vietnamese apparel and agricultural products to the global market at the best possible price and quality.

Importing is increasingly playing a crucial role in B2B trade nowadays. Every nation has unique strengths in producing particular goods, and Vietnam is not an exception. Vietnam is well-known for being the world's second-largest exporter of rice and other agricultural products, including coffee, almonds, spices, cinnamon, etc. The foundation of Tami's expanding business is to dedicate to assisting Vietnamese labourers and farmers for a better life.

TAMI AGRICULTURE TRADING

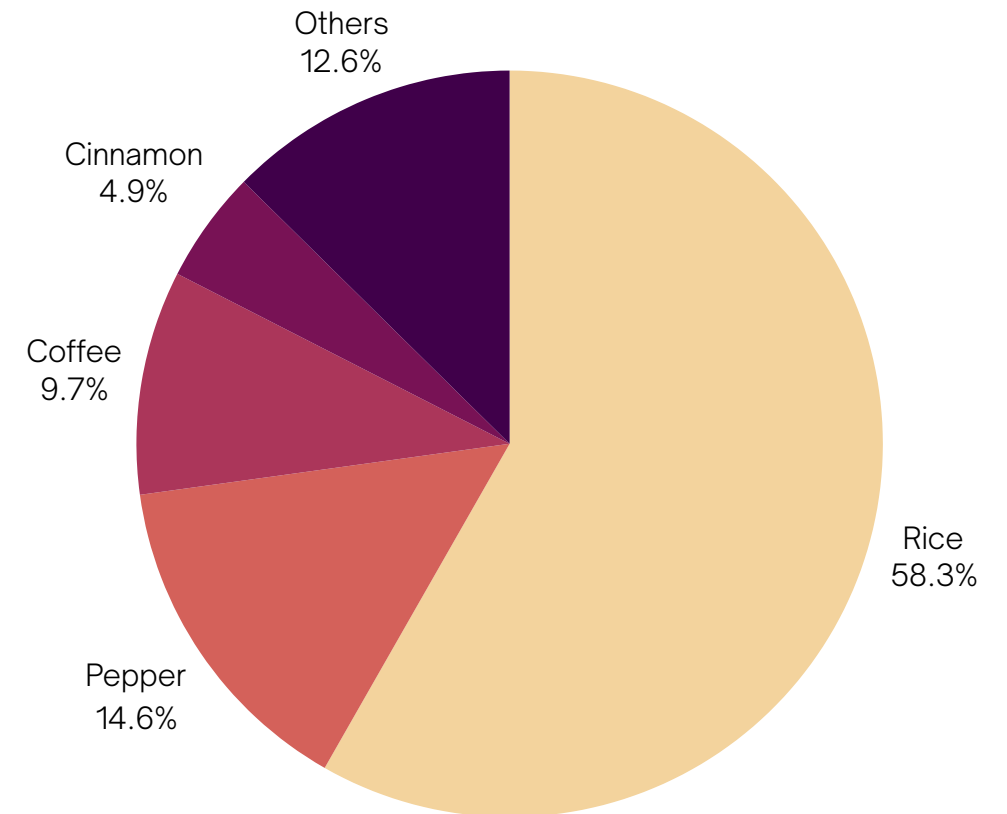

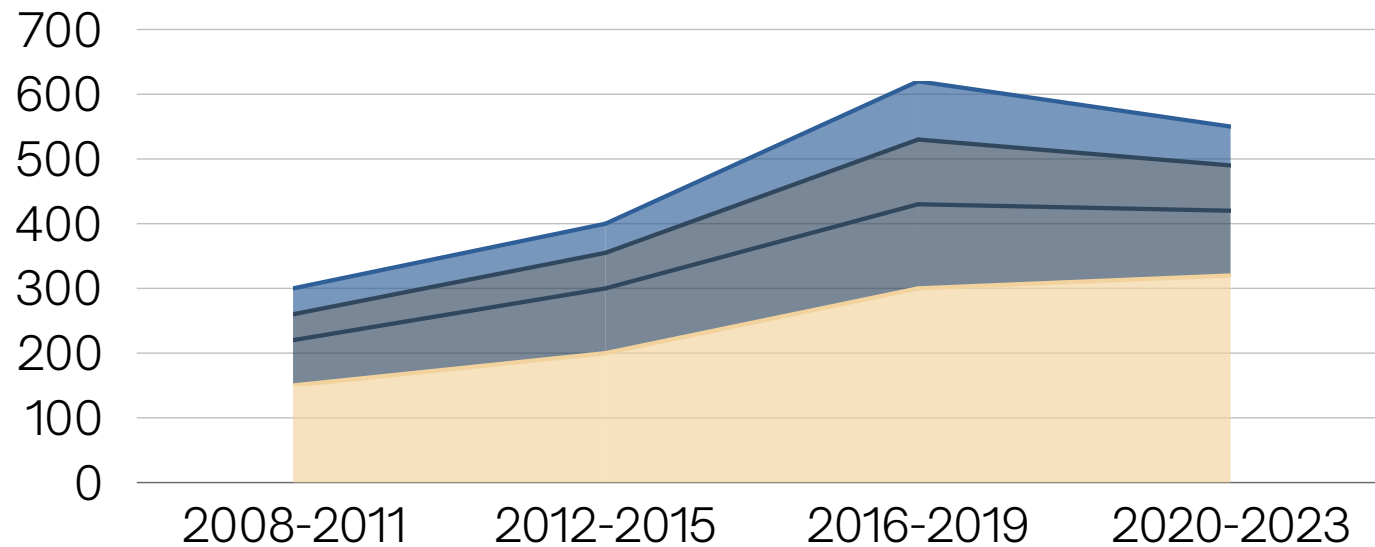

Our Vision

Our goal is to rank among the Top 100 agriculture exporters worldwide and among the Top 10 in Southeast Asia in the next ten years, with a focus on Vietnamese agriculture products

TAMI AGRICULTURE TRADING

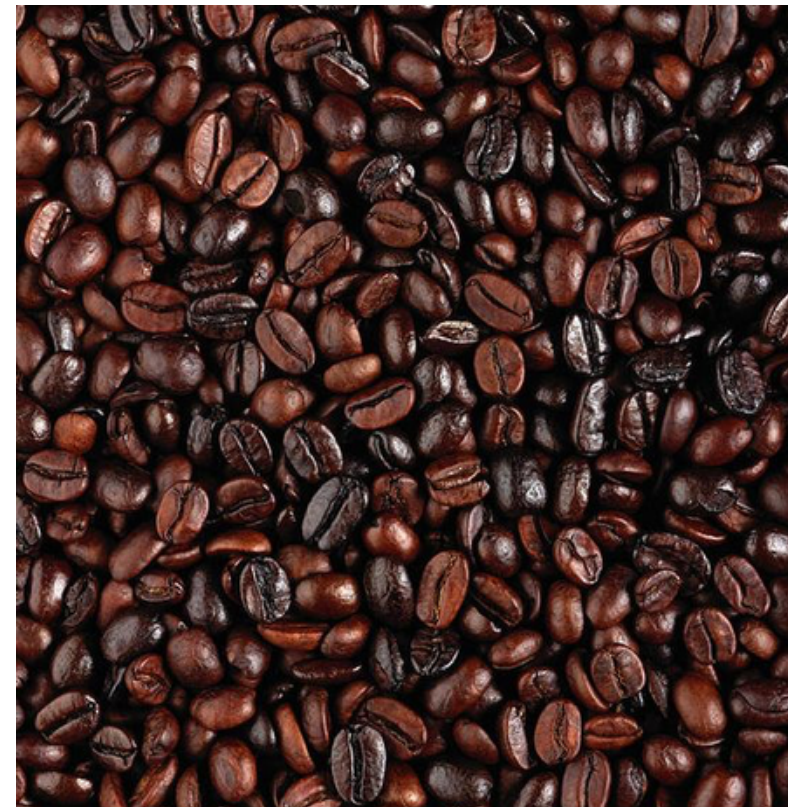

MARKET ANALYSIS

In the beginning, we had coporated with a few farms in Vietnam's north, and we began to export agricultural products. We also have finally reached our way to the southern part of Vietnam, which has the largest paddy field in the Mekong Delta, after a few years of building and growing the connection.

OUR PRODUCTS

Based on our relationships with rice suppliers, we have expanded our product line to include additional agricultural items like coffee, pepper, cinnamon, etc. in an effort to serve more clients and promote Vietnamese agri-products worldwide.
